

# SAFETY VALVE STAINLESS STEEL FULL-LIFT THREADED DIN

Материал stainless steel 1.4408; AISI 316

Налягане PN 16

Размер DN 20 - 25

## DESCRIPTION

Automatic pressure releasing valve which opens instantly and totally to sudden overpressure. Maximum discharge immediately at defined set pressure. Fully open at set pressure +5%.

When ordering a safety valve please let us know your requirements regarding capacity, media, temperature, inlet dimension and type of system.

## MEDIA

Steam and gases; saturated steam boilers, over heaters and reheaters, gas storage tanks, compressed air treatment and storage installations. Liquids; thermal fluid boilers, installations with large mass flows and chemical reactions with exothermal processes.

## OPTIONS

Open cap with lever

No.	Part	Material
1	Body	Stainless steel 1.4408 (AISI316)
2	Closed bell	Stainless steel 1.4408 (AISI316)
3	Elevator	Stainless steel 1.4408 (AISI316)
4	Lead	Stainless steel 1.4401 (AISI316)
5	Hood	Stainless steel 1.4408 (AISI316)
6	Plug	Stainless steel 1.4542 (AISI630)
7	Separator	Stainless steel 1.4401 (AISI316)
8	Seat	Stainless steel 1.4542 (AISI630)
8	Seat	Stainless steel 1.4028 (AISI420)
