

STAINLESS STEEL EXPANSION BELLOWS / FLANGED ENDS

Материал stainless steel 1.4408; AISI 316

Налягане PN 10-16

Размер DN 25 - 250

APPLICATIONS

Metal axial expansion joints helps to alleviate stress and systems by absorbing longitudinal expansion and compression in pipework
Suitable for wide range of applications
Horizontal or vertical position mounting
External protection
Internal liner

VARIANTS AND ADVANTAGES

None

No.	Parts	Material
1	Flanges	Steel (37.2)
2	Bellows	Stainless Steel (AISI 321)
3	Liner	Stainless Steel (AISI 321)

Specifications	
Standards	DIN
Pressure range:	16 Bar
Temperature range:	-20 °C to 300 °C

Dn	L	ødo	ød1	T	Waves nbre	Axial	Weight kg
25	105	48,2	32	0,3	17	±11	2,05
32	105	55,6	36	0,3	17	±10	3,09
40	120	61	41,4	0,3	17	±13	3,38
50	150	77	53,5	0,4	20	±20	4,62
65	140	96	70	0,4	16	±20	5,65
80	155	112	78	0,5	15	±25	7,02
100	220	141	103,5	0,6	20	±32	8,77
125	190	165	127,3	0,6	16	±33	11,24
150	270	201	156	0,6	20	±40	15,11
200	275	252	207	0,8	16	±33	21,07
