

THERMOMETER - VIBRATION RESISTANT STRAIGHT AND ANGLE

Материал stainless steel / brass

Налягане (-30.0 - 600) °C

Размер G1/2"

APPLICATIONS

To measure the temperature of different fluids and gases.

VARIANTS

Thermometer type: Straight type

Angle type

No.	Part	Material
1	Body	Aluminium, Polyamid
2	Parts in contacts with fluids (plunged part and fitting)	Brass, Steel, CrNi / steel

Specifications

Standart: DIN

THERMOMETER - VIBRATION RESISTANT STRAIGHT AND ANGLE

Материал stainless steel / brass

Налягане (-30.0 - 600) °C

Размер G1/2"
